

## e-Learning @ Harper Adams

We believe the learner is at the heart of the teaching and learning experience. We aim to develop and deliver engaging and effective e-learning based resources that promote and enhance learning. Our learning systems are being developed to promote stable and sustainable platforms for all our College learners across the UK and internationally

**Our learning technologists, academic and learner support tutors are working together on development projects including the following:**

- ◆ Distance and blended learning courses: poultry and rural enterprise & land management
- ◆ Learner support resources
- ◆ Computer aided assessments
- ◆ Virtual Farm
- ◆ Managed learning environment
- ◆ Video conferencing
- ◆ Digital video archives and libraries
- ◆ Meta-tagged object repositories
- ◆ *Harper@Work* portal to support placement students and employers
- ◆ Professional development for staff and students
