

Mathematics and Numeracy Support

The support aims to promote the outlook
'I can do maths!'

In recent years at Harper Adams many students have achieved success in mathematics and statistics subjects contrary to national trends because of changes to the curriculum and the provision of mathematics support

Services include:

- ◆ Individual and small group support
- ◆ Pen, paper and calculator methods
- ◆ Help with computer packages: Excel, mathcad, Genstat and SPSS
- ◆ Access to on-line support packages

Developments:

- ◆ Extended provision of paper-based and on-line resources
- ◆ Curriculum development
- ◆ Screening for, and support of, Dyscalculia
- ◆ Working with other national projects committed to improving students' numeracy and maths skills
- ◆ Research into the motivational aspects of learning mathematical based subjects, to inform approaches to effective teaching and support
